DATA ACCESS POLICY AND PROCEDURES

For Members of the Public

These data access procedures are updated each year as necessary to reflect any changes in personnel or circumstances that might affect public access to government data. This document is available free of charge upon request.

Revised April 2018

Introduction

This document contains procedures a member of the public must follow if he/she wants to see (inspect) or obtain copies of government data maintained by Western Lake Superior Sanitary District.

Right to Access Public Data

The Minnesota Government Data Practices Act (Minnesota Statutes Chapter 13) presumes that all government data are public unless state or federal law says the data are not public. Government data is a term that means all recorded information a government entity has, including paper, email, flash drives, CDs, DVDs, photographs, etc. If no statute or federal law can be identified that classifies the data as not public, the data are presumed to be public and available to anyone upon request.

The Minnesota Government Data Practices Act (MGDPA) also provides that WLSSD must keep all government data in a way that makes it easy for members of the public to access public data. Members of the public have the right to look at (inspect), free of charge, all public data WLSSD keeps. Members of the public also have the right to obtain copies of public data. MNGDPA allows WLSSD and other government entities to charge a fee to cover the costs of searching for and providing copies in either hard copy or electronic formats. Members of the public have the right to look at data, free of charge, before deciding to request copies.

How to Request Public Data

To look at data or request copies of data that WLSSD keeps, you must submit your data request in writing or by email, or you must complete a data request form. If you request data in person, you must fill out a data request form unless your data request is very simple and the data can be located and provided easily and immediately. A copy of the request form is included on page 8 of this document.

If you do not use WLSSD's Data Request Forms, the written request should:

- Indicate that you, a member of the public, are making a request for data under the Government Data Practices Act, Minnesota Statutes Chapter 13.
- Include whether the request is to look at (inspect) data, get copies of the data, or both.
- Include a clear description of the data that is to be inspected or copied.

Requests for data should be sent to the appropriate Designee listed in the Data Practices Contacts section of this document. Designees' contact information is also listed in the Data Practices Contacts section. Emailed requests should be sent to datarequest@wlssd.com.

WLSSD, and any government entity, cannot require you to identify yourself or explain the reason for the data request. However, depending on how the data request is to be processed WLSSD might need some additional information (if, for example, the request includes mailing copies of data WLSSD will need an address). Please note, if a request is not clear and WLSSD has no way to contact the requester, WLSSD will not be able to respond to the request.

How WLSSD responds to Requests for Public Data

MGDPA requests will be received, reviewed and processed during normal administrative business hours. Responses to MGDPA requests will be made at the time of the request, or as soon thereafter as reasonably possible.

Upon receiving your request:

- WLSSD will acknowledge receipt of the data request. WLSSD will respond to requests as promptly as possible and within statutorily required timelines.
- If the request is unclear, WLSSD may ask for clarification on the data requested.
- If the data is unavailable, the requester will be notified in writing as soon as reasonably possible (in cases where requesters have provided contact information). When no contact information has been provided, requesters will be notified of the unavailability of data when s/he contacts WLSSD to inquire about the status of the request.
- If the data is available, but the data are not public, the requester will be notified as soon as reasonably possible and will be provided with the specific law that prevents WLSSD from providing the data.
- If WLSSD has the data, and the data are public, WLSSD will respond to your request appropriately and promptly, within a reasonable time by taking one of the following actions:
 - Arrange a date, time and place for the requester to inspect the data, free of charge, if the request is to see the data, or
 - Provide the requester with copies of the data. The requester may choose to collect the data in person, or have them mailed, faxed or emailed. The requester will need to provide contact information (e.g. address, fax number, email address) if s/he does not choose to retrieve the data in person. WLSSD will provide electronic copies (e.g. emailed, CDROM) upon request if WLSSD keeps the data in electronic format. WLSSD will also provide an estimate of the costs of copies and notice about requirements for prepayment for copies.

If the requester does not understand some of the data (technical terminology, abbreviations, or acronyms), the requester should inform the person who provided the data. WLSSD will provide explanations upon request.

MGDPA does not require WLSSD to create or collect new data in response to a data request if WLSSD does not already have the data, or to provide data in a specific form or arrangement if WLSSD does not keep the data in that form or arrangement. (For example, if the data requested is kept only in paper format, WLSSD is not required to create electronic documents to respond to requests.) If WLSSD agrees to create data in response to a request, WLSSD will work with the requester on the details of the request including cost and response time.

MGDPA also does not require WLSSD to respond to questions that are not specific requests for data.

Fees will be charged as allowed by law and according to the fees and charges information provided in this Policy. You may be asked to submit a deposit or prepay for copies.

Requests for Summary Data

Summary data are statistical records or reports derived from data on individuals that are prepared by removing all identifying information about individuals from entirely private or confidential data.

WLSSD will prepare summary data in response to written requests. Costs of creating the data must be pre-paid. Upon receiving a written request (using the data request form in this document) WLSSD will respond within ten (10) business days with the data or details of when the data will be ready and the estimated amount to be charged to cover the costs of collecting, creating, and transmitting the data.

Access Procedures for Procurement Data

These data access procedures provide a description of the data that may be inspected or for which copies will be provided regarding Invitations to Bid (ITB) and Requests for Proposal (RFP). The classification or disclosure of ITB and RFP procurement data are governed by Minnesota Statutes section 13.591. The disclosure requirements for ITB and RFP procurement data differ.

Invitations to Bid

- **When bids are opened, only the names of bidders and the dollar amounts specified in the bid responses become public. All other data in bidders' responses are private or nonpublic data until "completion of the selection process."**

"Completion of the selection process" means that WLSSD has completed its evaluation and ranked the responses. WLSSD procurement staff open and preliminarily "rank" the bids, but WLSSD's bid evaluation, ranking and selection process is not completed until the WLSSD Sanitary Board has a.) had an opportunity to consider the evaluation data and accepted the bid of the lowest responsible bidder; or b.) rejected all bids. When the bid of the lowest responsible bidder is accepted, all remaining data submitted by all bidders are public except trade secret data.

If WLSSD rejects all bids before the selection process is completed, all data other than the names of the bidders and the bid amounts remain private or nonpublic until: a.) a resolicitation of bids results in completion of the selection process; or b.) WLSSD abandons the purchase. If WLSSD has not abandoned the purchase, but does not resolicit bids within one year of the bid opening date, the remaining data becomes public except trade secret information.

When bids are rejected after the selection process is completed, data that became public when the selection process was completed remain public.

Requests for Proposal

- **The names of RFP responders are public when RFP responses are opened. All other data in RFP responses are private or nonpublic until "completion of the evaluation process."**

"Completion of the evaluation process" means WLSSD has completed negotiating the contract with the selected vendor. WLSSD's proposal evaluation process is not completed until both the selected vendor and WLSSD have signed the contract.

When the proposal evaluation process is completed, all remaining data submitted by all RFP responders are public except trade secret data.

- **When WLSSD rejects all RFP responses, all information in the responses, except for responders' names, remains private or nonpublic until WLSSD resolicits proposals or abandons the purchase.**

If WLSSD rejects all proposals before the evaluation process is completed, all data other than the names of the responders remain private or nonpublic until a.) a resolicitation for proposals results in completion of the evaluation process; or b.) WLSSD abandons the purchase. If WLSSD has not abandoned the purchase, but does not resolicit proposals within one year of the proposal opening date, the remaining data become public except trade secret data.

When proposals are rejected after the evaluation process is completed, data that became public when the evaluation process was completed remain public.

- **Data created or maintained by WLSSD as part of a bid selection process or proposal evaluation process are “protected nonpublic data” until WLSSD completes its bid selection process or completes its RFP proposal evaluation process.**

“Protected nonpublic data” are data on a business or other entity that are not public and not available to the subject of the data.

Data created or maintained by WLSSD as part of a bid selection process become public only upon “completion of the selection process” for ITBs. Data created or maintained by WLSSD as part of a proposal evaluation process become public only upon “completion of the evaluation process” for RFPs.

Data created or maintained by WLSSD as part of a bid selection or proposal evaluation process include, but are not limited to: bid and proposal documents submitted by bidders and responders; evaluation panel notes and reports; identities of panel members; documents relating to bidder/responder responsibility; DBE participation information; and federal certifications.

When a selection or evaluation process is completed, all data created or maintained as part of the bid selection or proposal evaluation process becomes public except trade secret data.

- **Statements by ITB bidders or RFP responders that data they submitted are copyrighted or otherwise protected does not prevent public access to the data contained in the bids and proposals.**

A requester may inspect public copyrighted data contained in bids or proposals, but WLSSD generally cannot make copies of the copyrighted data without the copyright holder’s permission.

Data Fees and Charges

For standard paper copies, the per-copy charge is predetermined. For other types or large amounts of copies, the charge will vary. The law authorizes entities to charge the cost of searching for, retrieving, copying, certifying and transmitting the data. This may include employee time, materials, and mailing costs. WLSSD will respond to the requester with an estimate of the charges for the copies.

Charges must be paid in full prior to the release of copies. Charges must be paid by cash, credit card, or check made payable to Western Lake Superior Sanitary District.

WLSSD may require a 50% deposit prior to beginning work to fulfill a public data request when the estimated cost is in excess of \$50.00.

Costs to Provide Data – Public Data

Members of the public may inspect public data free of charge.

WLSSD charges requesters for copies of government data. The fees for copies of public data requested from WLSSD will be calculated as permitted by Minnesota Statutes section 13.03 or other law. WLSSD will make copies of public data for a fee as follows:

100 or fewer 8.5"x11" or 8.5"x14" black and white pages	\$.25 per copy single sided; \$.50 per copy double sided
101 or more 8.5"x11" pages	Actual cost of searching for and retrieving the data, plus the actual cost of employee time to make, certify, and/or electronically transmit copies of the data or the data themselves, plus the cost of materials (paper, CDROM, etc.) necessary to fulfill the request
Copies of pages larger than 8.5"x14"	Actual cost of searching for and retrieving the data, plus the actual cost of employee time to make, certify, and/or electronically transmit copies of the data or the data themselves, plus the cost of materials (paper, CDROM, etc.) necessary to fulfill the request.
Data available in electronic form	Actual cost of searching for and retrieving the data, plus the actual cost of employee time to electronically transmit copies of the data or the data themselves or providing the data on an electronic storage device, plus the cost of materials (paper, CDROM, etc.) necessary to fulfill the request.

Actual Cost of Making the Copies

In determining the actual cost of providing copies, WLSSD factors in the following:

- employee time to prepare copies (wage/salary and benefits).
- the cost of the media onto which we are copying the data (paper, CD, DVD, etc.).
- mailing costs, if any.
- If your request is for copies of data that WLSSD cannot reproduce internally, such as photographs, WLSSD will charge you the actual cost we must pay an outside vendor for the copies.
- Employee time to search for and retrieve data for copying (Entities cannot charge search for and retrieval time when the requestor is the data subject).

The cost of employee time to make copies is the hourly wage/salary and benefits for the lowest paid employee qualified to do the work (estimated to the nearest 1/10th of the hour).

Charges must be paid in full prior to the release of the copies.

Fees may be waived if the time required to fulfill a request is 15 minutes or less, or at the discretion of the Director of Finance and Responsible Authority.

Western Lake Superior Sanitary District Data Request Form

Date of Request _____

Describe or identify in reasonable detail the data you are requesting to see (inspect) or for which you request a copy.

You may inspect public data free of charge. The fees for copies of public data requested from WLSSD will be calculated as permitted by Minnesota Statutes section 13.03 or other law. WLSSD will make copies of public data for a fee as follows:

100 or fewer letter or legal sized pages	\$.25 per copy single sided; \$.50 per copy double sided, black and white
101 or more letter or legal sized pages	The actual cost of searching for and retrieving the data, plus the actual cost of employee time to make, certify, and/or electronically transmit copies of the data or the data themselves, plus the cost of materials (paper, CDROM, etc.) necessary to fulfill the request
Copies of pages larger than 8.5"x14"	Actual cost of searching for and retrieving the data, plus the actual cost of employee time to make, certify, and/or electronically transmit copies of the data or the data themselves, plus the cost of materials (paper, CDROM, etc.) necessary to fulfill the request.
Data available in electronic form	Actual cost of searching for and retrieving the data, plus the actual cost of employee time to electronically transmit copies of the data or the data themselves or providing the data on an electronic storage device, plus the cost of materials (paper, CDROM, etc.) necessary to fulfill the request.

Please check the appropriate box(es) below:

- I request to inspect or see the data.
- I request copies of the data and will pay a fee for the copies or electronic files.
- I am making a "standing request" to see or have copies of the data described above. WLSSD will honor your standing request for 6 months from the date of your request, but will not notify you when your request expires. You are responsible for renewing your standing request.

When requesting public data, you are not required to identify yourself or state the reason for your request. However, providing the following information may help Western Lake Superior Sanitary District respond to your request:
