REQUEST FOR PROPOSALS
UNIFORM AND LAUNDRY SERVICES
Resource Renew RFP# 1520
Addendum 2

Purpose: This addendum is to answer questions that have been asked about RFP 1520.

Question: If we do not have an item that meets one of the specifications in Form C, then how should we note it in our response?
Answer: Please mark each column with a hyphen. If you would like to provide additional explanation, then please do so on an additional sheet beginning by referencing the item.

Question: Is there a minimum ARC Rating or APTV this is required to meet your safety standards/requirements?
Answer: ARC uniforms are rated at a minimum of 8cal/cm2.

Question: We have several different ANSI Class 2 shirts available. Is there a preference for a button up versus no buttons? Color block versus non-color block?
Answer: There is no preference on button-up versus no buttons. The shirts should be all hi-vis yellow.

Question: Should the incumbent vendor be awarded the contract, would all employees be required to be outfitted with new uniforms, or would they be able to maintain their current inventory?
Answer: If the incumbent vendor is awarded the contract, then all current inventory shall be maintained. Any resulting savings SHALL NOT be considered as part of the Price Evaluation Criteria. Only your response to Form C: Price Proposal will be considered in the Price Evaluation Criteria.

Question: Please clarify on page 7, what would constitute an emergency need and or shortage? Is there an expectation that WLSSD has regarding a vendor response? I've noted that any shortages as outlined in the RFP require a 24-hour alleviation.
Answer: An emergency need or shortage would be anything requiring a =<24-hour alleviation. The intent of this prompt is to determine response times within that timeframe, and what the response would look like. We are looking for a "Who, What, Where, When?" of a =< 24-hour response.

Question: Can you confirm that there are no living or prevailing wage laws applicable to this contract?
Answer: There are no prevailing wage laws applicable.

Question: FR and ANSI options are only available in Men's or Unisex sizing. Is this acceptable?
Answer: This is not an issue if it is the only product available.

Question: Our online portal does not allow the user to directly make changes, but it allows for correspondence with an agent who will make requested changes. Is this acceptable?
Answer: This is an acceptable option for online changes.

Question: Why would an item on Form C not have a quantity? How should we respond to it?
Answer: Items without quantities are items that are not currently in use at the District, but that we would like to retain as an option for our staff. Please indicate pricing , and enter a hyphen in the "Total Price" column.

Question: Are the terms and conditions negotiable?
Answer: Some terms may be negotiable upon request, but this must be completed upon award of the contract. Many terms are mandated by law and are non-negotiable.
